

PDF Link Highlighter - Test Document

This is a simple test document.

To test the link highlighter, use a PDF that already contains clickable links, such as:

- Academic papers with citation links
- Business documents with URLs
- Forms with email or website links
- Documents with internal page references

Page 2 - Usage Instructions

1. Command Line Usage:

```
python highlight_links.py --input your-document.pdf
```

2. Web Interface:

```
streamlit run app_streamlit.py
```

3. Batch Processing:

```
python highlight_links.py --batch ./pdf-folder/
```

4. Custom Colors:

```
python highlight_links.py --input doc.pdf --color "#FF0000"
```

The application will automatically detect and highlight any clickable links in your PDF documents.
